OFF THE WALL COATINGS REMOVER

PRODUCT

Sanitred's Off The Wall Coatings Remover is an extremely effective and easy to use paint stripper, which is ideal to use in almost any applications. Like methylene chloride containing paint strippers, Coating Remover is a molecule expanding formula, so it works on virtually all coatings, including polyurethane and epoxy formulations. However, Coating Remover has a low volatility so instead of evaporating rapidly, it remains on surfaces, working and softening. Coating Remover removes more paint in fewer applications than methylene chloride containing paint strippers, and because it is water-soluble and biodegradable, it cleans up easily and is environmentally safe.

EASY TO USE

All you do to use Coating Remover is apply it and give it time to work. It has the right consistency, allowing it to remain in place, even on vertical surfaces, and because Coating Remover doesn't produce powerful fumes. It's easy to use safely indoors. Furthermore, Coating Remover contains no caustics, so it is incapable of burning skin and surfaces never require neutralizing after its use. Coating Remover is so safe, in fact, The United States Dept of Agriculture has approved it for use in food plants.
