SANI-TRED SYSTEMS

590% PERMANENT ELONGATION™

TEMPERATURE RANGE
-15° TO 250° F

EXCEEDS ALL ASTM VACUUM TESTING. MAINTAINS 29" HG FOR 110 HOURS WITH ZERO LEAK

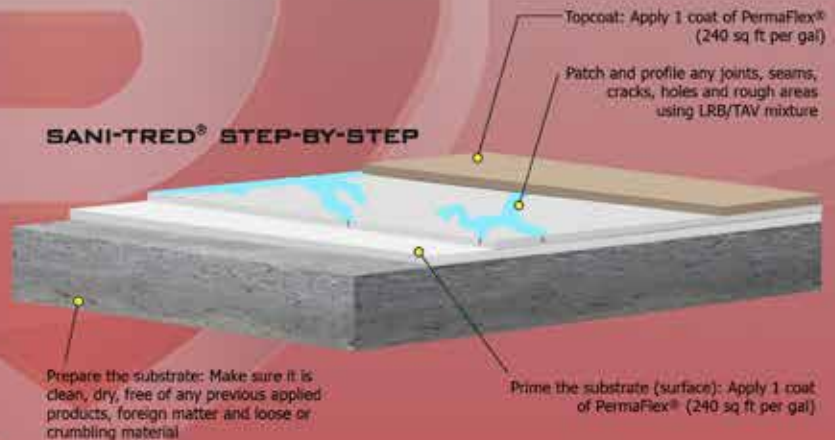

SANI-TRED IS THE WORLD'S ONE AND ONLY LIQUID RUBBER COATING SYSTEMS THAT PERMANENTLY REPAIRS AND BONDS TO CONCRETE, WOOD, FIBERGLASS, AND METAL.

PERMAFLEX, LRB, AND TAV

HAVE OVER 30 YEARS OF FIELD AND LAB TESTING. ALL SANITRED SYSTEMS GUARANTEE UNMATCHED PERFORMANCE IN ENDLESS APPLICATION ENVIRONMENTS.

- INTERIOR AND EXTERIOR
- 99% RADON ELIMINATION
- CRACK PROOF SYSTEMS
- RESISTS MOISTURE VAPOR
- FLEXIBLE PENETRATION TECHNOLOGY
- RETAINS NEGATIVE HYDROSTATIC PRESSURE
- LOW TEMP APPLICATIONS

SANI-TRED® STEP-BY-STEP

MARINE AND BOATING APPLICATIONS

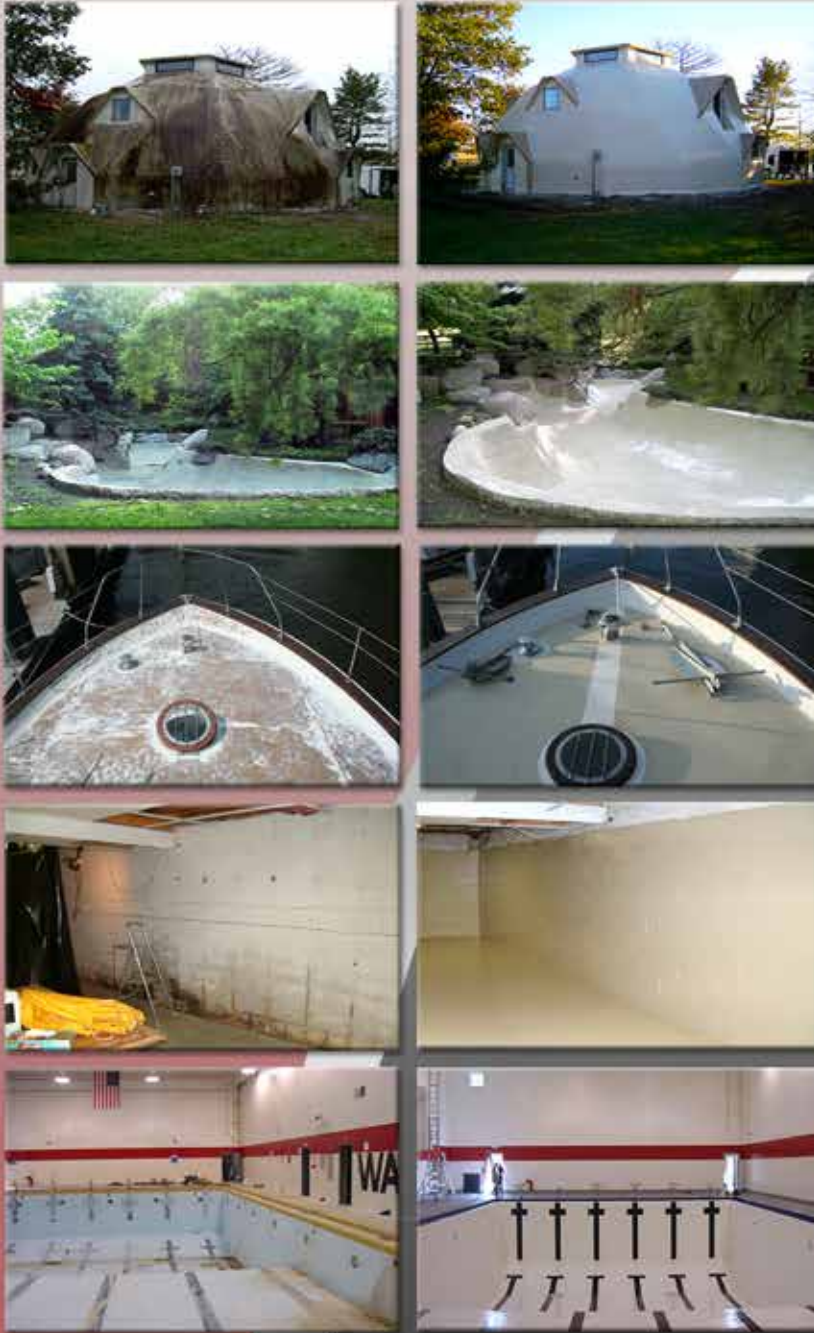

GRANIFLEX™ SYSTEM W/ POLYMER FLAKES

GRANIFLEX™ SYSTEM W/ QUARTZ BROADCAST

SANI-TRED

SEE WHAT SETS SANI-TRED® APART FROM OTHER WATERPROOFING PRODUCTS.

FLEXIBLE PENETRATION®, PERMAFLEX™ PENETRATES DEEPLY INTO THE PORES OF THE BUILDING MATERIALS, THEN CURES AS TOUGH AS A TRUCK TIRE THEREFORE IT IS IMPOSSIBLE FOR SANI-TRED® PRODUCTS TO EVER BUBBLE, PEEL OR DELAMINATE. THE FLEXIBLE PENETRATION ALLOWS PERMAFLEX™ TO HOLD BACK EXTREME NEGATIVE HYDROSTATIC PRESSURE WITHOUT FAILURE!

ELONGATION MEMORY® TECHNOLOGY ENSURES THAT WHEN SANI-TRED® PRODUCTS ARE COMPRESSED AND RELAXED, THEY MAINTAIN THEIR ORIGINAL SHAPE AND SIZE PREVENTING DISTORTION OF THEIR ORIGINAL SHAPE AND SIZE WHICH IS A MAJOR CAUSE OF RELEASE OF COATINGS FROM POWERFUL FORCES SUCH AS FREEZE/THAW CYCLES, WATER OR GAS PRESSURE, VIBRATION AND SUDDEN SHOCK.

PERMANENT ELONGATION® SANI-TRED® PRODUCTS ARE CAPABLE OF AN AMAZING 590% ELONGATION, AND NEVER HARDEN OR BECOME BRITTLE. THEY MAINTAIN FLEXIBILITY AND BECOME STRONGER WITH AGE WITHOUT BREAKING DOWN AS OTHER COATINGS DO. SANI-TRED® PERMAFLEX™ DEEPLY PENETRATES AND STRENGTHENS WEAK CONCRETE OR MORTAR JOINTS WHICH PREVENT DETACHMENT FROM THESE TYPES OF WEAK SUBSTRATES AS OTHER COATINGS ARE KNOWN TO DO.

PARKING GARAGE APPLICATIONS

POND AND FOUNTAIN WATERPROOFING

ENDLESS INDUSTRIAL APPLICATIONS
